Donavan Kemp

The field researcher

Brodey / Level 3 / Updated 1 October 2026

Human / Wizard 2 (Scribes) / Cleric 1 (Knowledge)

A field researcher of the Kemp Archive and Arcane University, husband to Dianna, and a defender of people exploited by greater power. Knowledge matters most when you decide how to use it.

AT A GLANCE	YOUR CURRENT BUILD
Maximum HP / Armor Class	24 HP / AC 16
Speed / Initiative	30 ft. / d20 +2
Proficiency / Hit Dice	+2 / 2d6 + 1d8
Your usual contribution	Research, support, healing, control, and flexible spellcasting.
Rules profile	2014 multiclass rules; Scribes and listed spell exceptions

Where we are

The party is in Phandalin, immediately before entering the Redbrand hideout. Your shared leads are to find Gundren, address the Redbrand threat, and investigate the Black Spider.

Use this at the table

This is your personal reference and emergency paper copy. Current HP, conditions, spent resources, and ammunition belong on your live sheet. The numbers here do not refill them. Private sections are for you and the DM.

Your party: Trista, Pebble (Byron), Donavan (Brodey), Ringgo (Cade), and Aldric (Bowman).

FIND IT FAST: Turn guide p. 2 / Sheet p. 3 / Resources p. 4 / Spells pp. 5-8 / Story p. 9 / Phone p. 10 / Table reference p. 11

Your turn, at a glance

Say what you want to accomplish, name a target, then choose an action. You can move before and after an action. You normally have one action, one bonus action if an ability grants it, and one reaction that refreshes at your turn's start.

WHEN / CHOICE	WHAT TO DO
Action: reliable cantrip	Ray of Frost: +6 to hit, 1d8 cold, range 60 ft., speed -10 ft. until your next turn. Toll the Dead: Wisdom DC 13, 1d8 necrotic or 1d12 if already wounded. Mind Sliver: Intelligence DC 14, 1d6 psychic and -1d4 to the next save before your next turn ends.
Action: support the party	Bless: a 1st-level slot, concentration, up to three creatures add 1d4 to attacks and saves. Cure Wounds: touch and heal 1d8+3. Choose whether immediate healing or ongoing support is most useful.
Bonus: ranged healing	Healing Word: 60 ft., heal 1d4+3 for a 1st-level slot. Under the 2014 rule, casting a bonus-action spell means your other spell that turn can only be a cantrip with a casting time of one action.
Reaction: protect	Shield costs a slot for +5 AC until your next turn starts after its trigger. Feather Fall can slow up to five falling creatures within 60 ft. Keep a reaction and slot available if you expect danger.
Use the right spellcasting number	Wizard spells use +6 to hit / save DC 14. Cleric spells use +5 to hit / save DC 13. Your spell slot pool is shared; you do not have separate cleric slots.
Scribes options	Wizardly Quill creates a special quill and speeds copying. Awakened Spellbook can exchange a wizard spell's damage type using a spell in your book of the same level as the slot expended. Ask the DM which type is legal; it is not a free choice of any damage type.

The mistake to avoid

Your four 1st-level and two 2nd-level slots are shared by both classes. The 2nd-level slots allow upcasting; they do not grant 2nd-level spells. Hit Dice are two d6s and one d8.

Resources and good habits

RESOURCE	CAPACITY / RECOVERY
1st-level shared spell slots	4 / long rest
2nd-level shared spell slots / upcasting	2 / long rest
Arcane Recovery	1 / once per day, used after a short rest
Awakened Spellbook quick ritual	1 / long rest

Arcane Recovery

Your wizard level is 2, so once per day after a short rest you can recover one spent 1st-level slot. Your total character level does not let you recover a 2nd-level slot.

Rituals and the book

Eligible rituals normally add 10 minutes without spending a slot. Once per long rest, your Awakened Spellbook can remove that added time for an eligible wizard ritual. It does not turn every ritual into an action: Identify still takes 1 minute; Find Familiar still takes 1 hour.

Armor and components

Your AC 16 is from a breastplate. Mage Armor cannot stack with it and would give only AC 15 while unarmored. Keep track of spell components and costly materials. Confirm whether your barn owl familiar is currently summoned.

Example turn

If allies need ongoing support, cast Bless and mark concentration. If someone falls, Healing Word can get them back on their feet while your action casts an allowed cantrip. Do not add another leveled action spell on that same turn.

Cantrips and casting

All spells listed here are available by your DM's table rule. This removes the preparation-choice restriction; it does not remove spell slots, material costs, or casting restrictions.

SPELL	SHORT REFERENCE
Dancing Lights	Cantrip / action / lights within 120 ft. / concentration up to 1 minute.
Prestidigitation	Cantrip / action / minor magical effect within 10 ft.
Ray of Frost	Cantrip / ranged spell attack +6 / 1d8 cold and speed -10 ft.
Toll the Dead	Cantrip / Wisdom save DC 13 / 1d8 necrotic, or 1d12 if target is wounded.
Spare the Dying	Cleric cantrip / action / touch / stabilize a living creature at 0 HP; does not heal or wake it.
Guidance	Cantrip / touch / concentration up to 1 minute / +1d4 to one ability check.
Mind Sliver	Wizard cantrip / action / 60 ft. / Intelligence DC 14; 1d6 psychic, then -1d4 from the next save before your next turn ends.

Two kinds of magic

Wizard: attack +6, save DC 14. Cleric: attack +5, save DC 13. Ray of Frost and Mind Sliver use wizard numbers; Toll the Dead uses cleric numbers. Cantrips cost no slot. Concentration still matters, including Guidance and Dancing Lights.

Wizard spellbook

All spells listed here are available by your DM's table rule. This removes the preparation-choice restriction; it does not remove spell slots, material costs, or casting restrictions.

SPELL	SHORT REFERENCE
Detect Magic	Wizard / Sense magic within 30 ft. / concentration up to 10 minutes / ritual possible.
Comprehend Languages	Wizard / Understand literal meaning of languages for 1 hour / ritual possible.
Find Familiar	Wizard / 1-hour cast / ritual possible / 10 gp materials consumed. Familiar cannot attack; confirm its presence and orders with the DM.
Magic Missile	Wizard / Action / three darts within 120 ft. / each deals 1d4+1 force; no attack roll.
Shield	Wizard / Reaction / +5 AC until next turn and blocks Magic Missile.
Catapult	Wizard / Xanathar's / action / Dexterity save DC 14 / fling a 1-5 lb. object; 3d8 bludgeoning.
Disguise Self	Wizard / Action / alter your appearance for 1 hour; inspection may reveal illusion.
Feather Fall	Wizard / Reaction / slow up to five falling creatures within 60 ft.
Witch Bolt	Wizard / Action / ranged spell attack +6 / 1d12 lightning, concentration; action to sustain.
Silent Image	Wizard / Action / range 60 ft. / create a visual illusion within a 15-ft. cube; concentration up to 10 minutes.
Mage Armor	Wizard / action / touch / unarmored AC 13 + Dexterity for 8 hours. For you AC 15; cannot stack with your breastplate.
Burning Hands	Wizard / action / 15-ft. cone / Dexterity DC 14; 3d6 fire, half on success. Add 1d6 with a 2nd-level slot. Watch allies.
Alarm	Wizard / 1-minute cast / ritual / ward an area against entry for 8 hours; choose audible or mental alarm.

Your 2nd-level slots

Use for specified upcasting: Magic Missile gets a fourth dart; Catapult gains 1d8 damage and allows 5 lb. more weight; Burning Hands gains 1d6. Witch Bolt increases only its initial damage under the 2014 spell. A higher slot is not a general power boost.

Cleric and domain spells

All spells listed here are available by your DM's table rule. This removes the preparation-choice restriction; it does not remove spell slots, material costs, or casting restrictions.

SPELL	SHORT REFERENCE
Command	Domain spell / Wisdom save DC 13 / one-word command within 60 ft.
Identify	Domain / 1-minute cast / touch / ritual possible / identifies properties and use of a magic item. Requires a pearl worth at least 100 gp; not normally consumed.
Cure Wounds	Cleric / Action / touch / restore 1d8+3 HP.
Healing Word	Cleric / Bonus action / 60 ft. / restore 1d4+3 HP.
Shield of Faith	Cleric / Bonus action / +2 AC to one creature / concentration up to 10 minutes.

Bless	Cleric / Action / up to three creatures add 1d4 to attacks and saves / concentration.
Create or Destroy Water	Cleric / Action / create or destroy water in an open container or rain/fog in a small area.

Healing and targets

At 2nd level, Cure Wounds heals 2d8+3 and Healing Word 2d4+3. Bless or Bane can affect four creatures. Command can affect two eligible creatures. Choose the slot and targets before submitting your request.

Cleric spells continued

All spells listed here are available by your DM's table rule. This removes the preparation-choice restriction; it does not remove spell slots, material costs, or casting restrictions.

SPELL	SHORT REFERENCE
Detect Evil and Good	Cleric / Action / sense certain supernatural creatures or consecration within 30 ft. / concentration.
Detect Poison and Disease	Cleric / Action / sense poison, poisonous creatures, or disease within 30 ft. / concentration; ritual.
Guiding Bolt	Cleric / Action / ranged spell attack +5 / 4d6 radiant; next attack against target gains advantage.
Inflict Wounds	Cleric / Action / melee spell attack +5 / 3d10 necrotic.
Protection from Evil and Good	Cleric / Action / touch / protect from listed creature types / concentration; material component consumed.
Purify Food and Drink	Cleric / Action or ritual / purify nonmagical food and drink in a 5-ft. radius.
Sanctuary	Cleric / Bonus action / protected creature within 30 ft.; attackers make Wisdom save DC 13.
Ceremony	Cleric / 1-hour cast / ritual possible / choose a qualifying rite; consumes 25 gp powdered silver. Ask the DM about its conditions.

Important limits

Sanctuary can end when the warded creature attacks, damages another creature, or casts a spell affecting an enemy. Detect Evil and Good identifies listed supernatural types, not whether an ordinary person is morally good. Protection spells have specific creature-type limits; ask before spending a slot.

What you actually know

Confirmed stopping point: immediately before the Redbrand hideout. The hideout's events have not yet been recorded as played.

RECORD	CONFIRMED SO FAR
Cragmaw Hideout	Klarg was killed. The party bargained with Yeemik to free Sildar, then left Yeemik in charge.
Rescue and arrival	Sildar was rescued and came to Phandalin. The whole party and Sildar took a long rest after the hideout.
The investigation	The party learned that the Black Spider exists and that the Redbrands have Gundren. Gundren's present location has not been established for the party.
Other encounters	The orc camp was cleared. Hamun Kost disappeared instead of fighting; his destination and method are unconfirmed.
Treasure and help	Copper and silver were found; amounts and division are unrecorded. A potion found in the hideout was used to help Aldric after he fell. Do not add it back to inventory.

For you and the DM

You noticed Trista hide something, but do not know what it was. Do not treat player knowledge as proof. You can ask her about it, respect her privacy, or tell the DM how you want to approach the moment.

Your personal opportunities

Write home: Tell Dianna what Donavan actually experienced. A letter can ask a question or offer reassurance; it is not automatically delivered outside the game.
Keep good field notes: Separate what you observed from what someone claimed, what you infer, and what remains open.
Choose what to publish: Ask who could be helped or harmed by sharing a discovery. Get permission before including another character's private information.

These are choices you can pursue, not events that have already happened or obligations imposed on your character.

Your phone at the table

OPEN	WHAT IT IS FOR
Table	Current objective, your turn, initiative, dice, and requests. Pick an action and target, then send it for DM review.
My sheet	Abilities, attacks, spells, resources, and character information. Check your name, HP, and conditions at the start of play.
Journal & clues	Published information and personal clues/notes. Use Share with party deliberately when you want a private clue shared.
Loot & promises	Party inventory and important commitments. Request a claim, transfer, equipment change, or item use; review who carries it.

Join your own character

Use the DM's current QR code or full direct join link. Select **Donavan Kemp** and confirm the assignment. If it is already claimed, ask the DM to release or reassign that one phone. Do not choose another player's character as a workaround.

An action, from idea to result

Choose the action, slot or resource if relevant, and target. Explain anything unusual. Send once. **Waiting** means the DM has not decided; **needs clarification** means revise the details; **approved** is permission; **resolved** means the effects have been handled; **declined** means choose another approach. Revise or cancel pending requests when your intention changes.

Roll once; spend once

When prompted, roll digitally or enter the requested physical-dice result. Check whether the field wants a natural die or a total. Do not submit both. After resolution, check HP, resources, and concentration before manually changing them; the approved workflow may already have applied them.

Quests and exploration

The main quest appears on the TV. Shared side quests are on phones; character quests go to their owner. Use Active and Completed views where available. An unpublished quest is not a known objective. Movement, searches, and destination requests still need DM approval.

If the connection drops

Tell the DM, then reopen the current link in Safari or Chrome on the table Wi-Fi. If scanning fails, type the full link, including http:// if supplied. Check the last-updated time. A cached sheet is a reference; live rolls and changes require reconnection. Keep this PDF available offline.

Play confidently

You do not need the perfect button

Describe your intent first: "I want to get them out safely," "I search this lock for a trap," or "I ask what they actually saw." The DM tells you whether a roll is needed. Conversation, scouting, research, surrender, and retreat are valid choices.

AT THE TABLE	QUICK REMINDER
A d20 test	Roll d20 plus the listed bonus. Meet or beat AC for an attack or the difficulty for a check/save. Damage is usually a separate roll.
Advantage / disadvantage	Roll two d20s, keeping the higher / lower. They do not stack; having both cancels them. Let the DM confirm the reason.
Movement and reactions	Describe your path; difficult terrain costs extra movement. Leaving an enemy's reach can provoke an opportunity attack unless an exception applies. Say "I have a reaction" before the result is finalized.
Concentration	Only one concentration effect at once. Damage usually calls for a Constitution save, DC 10 or half the damage taken, whichever is higher. Check each damage instance with the DM.
At 0 HP	Ask the DM for death saves and mark successes/failures. Healing, stabilizing, taking damage, and being unconscious are different. Do not skip a save or declare a recovery yourself.
Resting	Ask whether the location and time permit a rest. Review Hit Dice and feature recovery before applying it. A printed maximum is not a record of what remains.

Before you leave the table

Confirm current HP and resources, important loot and its carrier, new facts versus guesses, promises, and your next objective. Tell the DM about any mistake while it is easy to correct. Note one moment you enjoyed and one thing you want your character to pursue.

Comfort and cooperation

You can pause, ask for clarification, or request that a scene happen off-screen. Give others room to contribute. Private character knowledge is roleplay material, not permission to derail another player's choices.

Record basis: Brodey's updated sheet and approved backstory; corrected campaign record; 2014 multiclass spellcasting; Order of Scribes; table rule making all listed spells available. Build checked against the 1 October 2026 campaign backup. This is a practical summary, not complete book text. The DM adjudicates edge cases and records table rulings.
