GORON TRAITS / ACTIONS / FEATS

Fire-Forged

PASSIVE / APPROVED HOMEBREW

Your volcanic Goron body has **resistance to fire damage**. Whenever you take fire damage, halve that damage, rounding down. This is always active and requires no action or resource.

Rock Eater

GORON TRAIT / APPROVED HOMEBREW

Ordinary, nonmagical stone can satisfy your food needs; you still need water. Eating a magical stone stores its magical properties for 24 hours of in-game time. Choose when to activate or use its power within that window. Stored properties expire 24 hours after the stone is eaten; activating late does not reset that expiry. The DM defines how each stone's power manifests, its activation/action cost, and any stone-specific uses or limits.

Interception

REACTION

When a creature you can see hits someone other than you within 5 feet of you, use your reaction to reduce the damage by **1d10+2**, to a minimum of 0. You must be holding a shield or a simple or martial weapon.

Second Wind

BONUS ACTION / 1 PER REST

As a bonus action, regain **1d10+4 HP**, up to your maximum. You regain this use after a short or long rest.

Action Surge

1 PER SHORT OR LONG REST

On your turn, take **one additional action**. You regain this use after a short or long rest. At Fighter 4, your Attack action makes one attack; Action Surge can give you another Attack action.

Crusher

ON A BLUDGEONING HIT

Once on each of your turns, after you hit with an attack dealing bludgeoning damage, you may move the target 5 feet into an unoccupied space if it is no more than one size larger than you. On a bludgeoning critical hit, attacks against that creature have advantage until your next turn starts.

Improved Critical

CHAMPION / PASSIVE

Your weapon attacks score a critical hit on a natural **19 or 20**. Warhammer critical: **2d8+4**; handaxe critical: **2d6+4**. Double damage dice, keeping the +4 modifier once.

Tough

FEAT / PASSIVE

Your maximum HP includes **+8 HP** from Tough at level 4. At each later character level, Tough adds another 2 maximum HP in addition to your usual level-up HP.

MAGICAL STONES EATEN & PROPERTIES GAINED

Each magical stone stores its properties for 24 in-game hours from eating. Choose when to use its power during that window. Record the eating time and expiry; activating later does not restart the clock.

Personal note: A curious mountain traveler seeking delicious shiny rocks. Pebble is brave, but unfamiliar roads make him uneasy.

Build record: Fighter 4; level-4 HP roll 10 +2 CON +8 Tough = 43 maximum HP. Fire-Forged and Rock Eater approved 9 October 2026. Equipment and coins are the recorded baseline; check the live sheet for changes during play.
